Where you are against your repayment guide

You have decided to repay your facility gradually by your planned repayment date of 11/12/2031. The planned balance we show you each month shows how your balance would need to decrease if you were planning to make regular monthly payments through to 11/12/2031. These figures show your position against your guide as at 30/10/2026.

Your actual balance	£309,795.87
Your planned balance	£128,195.18
That means you are	£181,600.69 behind your guide.

You should budget £3,623.66 next month if you want to keep the same position against plan. This is made up of £1,930.41 interest, to be collected on 24/11/2026, and you budgeting to leave £1,693.25 in your account to reduce your balance. This assumes that interest rates do not change over the next month. Remember that these figures are simply a guide - they will vary slightly from month to month to reflect the date your statement is produced.
