Re: Mortgage account 11177343 — change of circumstances

Dear Sir/Madam,

I am writing regarding mortgage account 11177343 (Maple Tree House, 1 Kingsmead, Pebmarsh, Essex, CO9 2NA), held jointly with Heather Thomas. Some updates for your records, and a few requests.

First, Heather and I have separated and are in the process of divorcing. We are currently running two households — Heather remains at the property; I am in rented accommodation — and the house will be sold as part of the financial settlement.

Second, the property has an active subsidence claim with our home insurer. Liability has been accepted and the claim is progressing — mitigation works are under way, and remedial works are currently expected to complete around spring 2027. You may also wish to note that recent professional valuations indicate a value of at least £550,000 once the remedial works are complete — above the last valuation shown on our statements.

The account is within its facility limit and the monthly interest is being met in full. Given the cost of running two households, please set out what, if any, support options are available to us on this account that would not affect our credit files — for example regarding the facility limit or the planned repayment date. For any option, please confirm whether it would be reported to credit reference agencies.

Please also send a current redemption statement, including a breakdown of any early repayment charge — how it is calculated and the date until which it applies — and any discharge or administration fees.

Finally, please update your records with the contact details below, so anything sent by post, phone or message reaches us both.

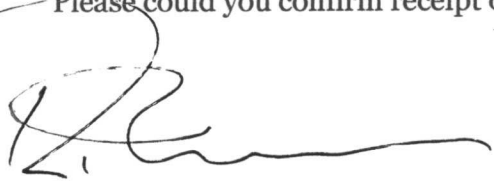

Rupert Thomas
